Technical specifications:

Weight 229 ± 7 g/m²

Surface matt

Colour white

Thickness 270 ± 8 µm

Opacity > 86%

CIE whiteness (D65/10°) > 134

Laminability: hot and cold

Flame retardant no

CIE L*a*b*: L* = 95.8 a* = -0.2 b* = -1.2

Notes:

Before printing on our Tetenal spectra jet media, please ensure that the paper is compatible with your inkjet printer. We accept no liability for poor print results when the reason for this, such as use of non-proprietary inks, lie outside our control. The specifications of the material may change without express notice being given. The information in this data sheet is for guidance only.
